

# TRT Masterclass Clinical Excellence

A two-day, doctor-led programme for UK healthcare professionals.

18–19 July 2026 · Plymouth  
· CPD Accredited

## Doctor-Led Clinical Teaching

Led by Dr Angela Servis, Medical Director, alongside a faculty of practising UK clinicians who actively manage TRT patients. Every session is taught by clinicians who do this work day-to-day — not external consultants reading from slides. Small-group format ensures every delegate gets faculty time during cases and Q&A.

## Course Logistics

Leonardo Hotel Plymouth  
PL4 0AZ

16 CPD hours · Ref 22054

# Two pricing tiers. Pay in full or in three.

EARLY BIRD  
£1,600  
per delegate

# ABOUT THE PROGRAMME

Trifold brochures have long been a type of material used to advertise brands, products, and services.

## About ECTA

ECTA delivers evidence-based, doctor-led clinical training to UK healthcare professionals. The TRT Masterclass is our flagship two-day intensive — designed for GPs, nurse practitioners, paramedics, and clinic-based clinicians who want to add competent testosterone replacement therapy management to their scope, or who want a structured refresher backed by current evidence.

- ✓ Doctor-Led Faculty
- ✓ Evidence-Based Curriculum
- ✓ Peer-Cohort Learning
